# Costas are made for those who need water to breathe

—the anglers, surfers, swimmers and explorers who have inspired us since 1983 to grow our tribe and push sunglass technology forward. It's a journey we couldn't make without you, and we're proud to have you on our next adventure. Let's fill our days and see where the tide takes us.

While the water has always guided our way, it's the company we've kept that we have to thank for where we are today.

To our customers, reps, retail sales associates, employees, pros, partners and loyal fans, and everyone who has experienced the beauty of our watery world through a pair of Costas:

**THANK YOU**
